Our daughter was married recently at a simple outdoor wedding ceremony in Camden, Maine. There is no electricity there, so we were so happy when we found Michael and Laura Gallucci from Maine Bella Musica. Laura was a joy to work with! Though we had never met, right from the first email contact, she made me feel so comfortable and confident. Her communications were prompt, detailed and informative. This couple is professional, yet warm and caring. They arrived on time and I can't say enough about the quality of their music and performance. For us, they primarily played classical music on the violin and guitar, though I know they do other types of music as well. We, along with all of our guests, were delighted to have them play for us. I highly recommend them for any function or event! Thank you Laura and Michael! You truly made our daughters day a special one!
